Introduction

The Webex Room Series is fully integrated with the Webex platform. These intelligent video collaboration systems bring your meeting rooms to life. Whether you are redesigning your conference rooms or simply adding huddle spaces, the Webex Room Series has video-conferencing solutions to meet your needs.

Control Hub offers a holistic view of all your Webex services, allowing you to manage your services and users, provision devices, view detailed analytics and reporting, and configure security and compliance policies.

When you are ready to take your meeting experiences to the next level, supercharge your collaboration with RoomOS. Meet, call or brainstorm an idea that can turn into the next big thing – all on one platform. RoomOS enables your Webex Room devices to deliver magical collaboration experiences.

Webex Room Bar

Webex Room Bar is a compact, yet powerful room device providing stunning video, audio and visual collaboration, unparalleled flexibility and inclusive meeting experiences in your focus rooms, huddle spaces and small-to-medium meeting rooms.

Key Features & Benefits:

- > Integrated, codec-powered video bar with flexible mounting
- > Dual-screen support
- > 12 MP, speaker tracking camera
- > Dual stereo speakers
- > Noise-cancelling mic array
- > External microphone input
- > USB-C passthrough
- > Third-party video interoperability
- > 4K content sharing
- > Presence sensors
- > Touch control panel
- > Unified management & analytics

Webex Room Series and Kits
Adaptable, scalable solutions ready to integrate with a variety of screens and spaces.

The Webex Room USB extends huddle space collaboration with a 120° camera, noise suppression, and auto framing of participants. Connect via USB to any laptop or mini-pc for an

affordable, powerful video bar. It works best with Cisco Webex and is flexible enough to work with other UC platforms.

Cisco Webex Room USB - BYOC (Bring Your Own Codec)

Key Features & Benefits:

- > Brings intelligent views to smaller rooms with a discreet, integrated camera
- > **Best overview:** Automatically detects meeting participants and provides ideal framing
- > Great audio experience with integrated microphones and speakers
- > Automatic noise suppression reduces disruptive sounds coming from the meeting room (e.g., typing, paper rustling)
- > End-to-end security

Cisco Webex Room Kit

Cisco Webex Room Kit is a powerful collaboration solution that integrates with either one or two flat panel displays to bring more intelligence and usability to your small to medium-sized meeting rooms – whether registered on the premises or to

Cisco Webex in the cloud. The Room Kit – which includes an integrated camera, codec, speakers, and microphones in a single device – is ideal for rooms that seat up to seven people.

Key Features & Benefits:

- > **Smart meetings:** Powerful, integrated cameras deliver intelligent view capabilities, such as automatic framing and speaker tracking; automatic noise suppression reduces meeting disruptions
- > **Smart presentations:** Ideal to pair with dual screens while supporting dual content sources, wireless sharing, and 4K content make for great presentations
- > **Smart rooms:** People count for usage metrics and resource allocation; tight integrations with screens to enhance user interactions; APIs and macros allow meeting personalization
- > **Registration flexibility:** Built for both cloud and on premises deployment, protecting your investment

The Webex Room Kit Pro provides a powerful and flexible platform for creating the ultimate video collaboration experience in large, custom video rooms, including boardrooms, auditoriums, classroom theaters, conference rooms and purpose-built workspaces for vertical applications. The Room Kit Pro is the most advanced product within the Room Kit Series, built with integrators in mind and enabling flexibility and creativity for customized video collaboration rooms that delight customers.

Cisco offers three integrator bundle options for the Webex Room Kit Pro:

- 1) Webex Room Kit Pro integrator package with Codec Pro, Quad Camera and Webex Room Navigator
- 2) Webex Room Kit Pro PTZ 4K integrator package with Codec Pro, the Webex PTZ 4K Camera and Webex Room Navigator
- 3) The Codec Pro is also available separately as a standalone unit.

Default components:

- > Ideal for rooms for 14 + participants requiring presenter camera and screen
- > Cisco Webex Quad Camera
- > Cisco Webex Codec Pro
- > Cisco Touch 10 control unit

Camera Specs

- > Quad camera
- > 5x Total zoom
- > 83° Field of View overview

Presenter Camera Options:

- > Speaker Track 60 (for presenter tracking)
- > P60 Camera (for PTZ control)

3rd Party Products

- > Control systems / system switching
- > DSP / microphones
- > Amplification / speakers

Cisco Webex Room Kit Plus

The Room Kit Plus – comprising a powerful codec and a quad-camera bar with integrated speakers and microphones – is ideal for rooms that seat up to 14 people. It offers sophisticated

camera technologies that bring speaker-tracking and auto-framing capabilities to medium to large-sized rooms.

Key Features & Benefits:

- > **Smart meetings:** Powerful, integrated cameras deliver intelligent view capabilities, such as automatic framing and speaker tracking; automatic noise suppression reduces meeting disruptions
- > **Smart presentations:** Dual screens, dual content sources, wireless sharing, and 4K content make for great presentations
- > **Smart rooms:** People count for usage metrics and resource allocation; tight integrations with screens to enhance user interactions; APIs and macros allow meeting personalization
- > **Audio-visual integration:** The Codec Plus is an entry-level integrator codec, supporting third-party audio systems. Control systems can use RS-232 with a USB adapter, or SSH
- > **Registration flexibility:** Built for both cloud and on-premises deployment, protecting your investment

Camera Overview (Quad Camera)

- > 4x 5K CMOS sensors with machine intelligent switching; providing single HD output at 1080p
- > Support up to 60 fps
- > 15.1 MP image sensor
- > 1/1.7 CMOS
- > 5x digital zoom (3 tele-lenses each with 50° horizontal field of view)
- > f/2.0 aperture
- > 83° horizontal field of view; 51.5° vertical field of view

Default components in Webex Room Kit Plus

- > Webex Codec Plus
- > Webex Quad Camera
- > Webex Room Navigator control unit
- > Wall mount for Quad Camera

Available integrator bundles

- > Webex Room Kit Plus PTZ 4K (featuring the Webex PTZ 4K Camera)

The Room 55, which includes camera, codec, display, speaker system, and microphones integrated in a single device, is optimized for rooms that seat up to seven people. It is an all-in-one, integrated system that's easy to install, use, deploy, and manage. It's crafted with high-quality

components: professional 4K display for longevity and minimal latency, powerful digital zoom camera for discreet tracking, sophisticated speaker system and amplifier to deliver rich sound, and a light industrial design that combines aluminium and fabric for a sustainable and humanizing effect.

The Room 55 is also available with two 55-inch LED screens for a people-focused or a people- and content-focused experience

Webex Room 55 (Single)

Cisco Webex Room Panorama

Cisco Webex Room Panorama is a new first-class collaboration system built for the modern C-suite. The Room Panorama provides immersive video experience, rich content sharing, and co-creation experience within the Cisco Webex Room Series portfolio. These fully integrated systems combine beautiful design and powerful functionality into an all-in-one solution for

medium-to-large rooms. The Room Panorama features a powerful engine to build more complex and specialised video scenarios. Room Panorama will transform your meeting spaces into a video collaboration hub — whether for connecting teams across the world or for local meetings.

Key Features & Benefits:

- > Light, sophisticated industrial design is recipient of 2017 Red Dot award for innovation in design
- > Powerful 5K UltraHD camera and wide-angle lens cover everyone in the room
- > Stereo speakers with dedicated center speaker for optimal voice pick-up.
- > Built-in amplifier to deliver rich sound
- > Speakers above screen for more equal room coverage
- > 4K professional-grade screen
- > Fabric front for natural and inviting feel
- > Aluminium frame for lightness in design and sustainability
- > Increased height over previous generation to accommodate taller tables (10 cm/4 inches taller than MX300)
- > Highly reliable as components and software are designed to work together
- > Designed to minimise latency and echo

Key features:

The Room Panorama will be shipped as a complete technology package from Cisco. This includes everything you need to make it operational, including:

- > Two Samsung 82-inch 8K QLED displays for video and one Samsung 65-inch 4K display for presentations
- > Codec and four 5K cameras at 60 frames per second (fps)
- > Touch 10 controller
- > 12-loudspeaker system with directional audio capabilities
- > 4 bass modules
- > Cooling system
- > Audio amplifier
- > Complete power system
- > 3 table microphones
- > Presentation cables
- > **Wall structure:** The customer can design their own wall finish to match the existing room, or they can buy the Cisco wall finish in light oak as an option

Cisco Board Pro

Webex Board Pro is an integrated system that provides everything you need for hybrid teamwork and co-creation. It brings your local and remote teams together to join video meetings, digitally whiteboard, use your go-to apps, wirelessly present, and share content in a connected

workspace. Webex Board Pro helps your teams collaborate in any meeting space, join Webex and third-party meetings with one button to push, use your go-to productivity tools via web apps, and connect with remote members with ease to become more productive.

Discover the all-in-one touch device for video conferencing, digital whiteboarding and team collaboration.

Webex Board Series
(Integrated All-in-one solution for Hybrid Teamworking).

Key Features & Benefits:

- > **Real-time video collaboration:** Unlike other collaboration displays, the Board Pro is designed to deliver a face-to-face experience that rivals in-person meetings. With high-quality video and audio, it turns your sessions into premium video conferencing to build connection and digital proximity among dispersed teams.
- > **Visual collaboration:** Empower your teams to generate ideas or problem-solve. The digital whiteboard lets teams brainstorm, draw, use stickies, and annotate in a freeform fashion on an infinite canvas. Use two dedicated stylus and touch-based pinch and zoom for details and precision.
- > **Continuous collaboration:** Every session is stored in a Webex space so you never lose an idea. Work can continue across time zones and teams can add to it any time. Share ideas and collaborate across distances without the fear of losing your work.
- > **Local collaboration:** Pair the device with your laptop, share wirelessly, and annotate on any content. Go from ideate, to create, to iterate – using one capacitive touchscreen.
- > **Agile workflows:** Agile teams can quickly access their preferred project management apps and collaboration tools through integrated web apps and draw, annotate, or share ideas seamlessly.
- > **Hybrid education:** Teachers can instruct in-room and remote students with the digital whiteboard, where files are saved and can be shared with the entire class after the session. Bring in experts from around the world to share their knowledge with students.
- > **Digital signage:** Webex Board Pro allows you to show custom content with the aim to provide information that is important to the workforce and guests, including upcoming town hall dates, company calendars, safety guidelines, and critical alerts in open spaces, hallways, and lobby areas.

Cisco PTZ 4K Camera

Product Overview:

The Webex® PTZ 4K Camera is a premium pan-tilt-zoom camera that provides superior video quality, powerful zoom capabilities, intelligent AI-based features, and flexibility for optimised video collaboration experiences.

Key Features:

- > 4K Ultra HD video
- > 240x total zoom
- > PresenterTrack
- > Flexible mounting
- > Camera control
- > Resolution: 1920 x 1080 at 60 fps 3840 x 2160 at 30 fps

- > Pan range: +/- 170 degrees
- > Tilt range: -20 degrees to +90 degrees
- > Pan speed: 1.1 degree/sec ~ 300 degree/sec
- > Tilt speed: 1.1 degree/sec ~ 126 degree/sec

Camera Upgrades

The Cisco camera portfolio is designed to provide optimised video experience in any meeting space.

Cisco Webex Speaker Track 60

Product Overview:

Cisco Webex® Desk Camera is a premium USB web camera that provides high-quality video and audio for video conferencing, video streaming, and video recording. It brings superior 4K video, high-quality microphone audio, intelligent AI-based features, IT device management no matter where you are. It is designed to work on Windows and MacOS PC as a standard video device, and is compatible with any Cisco or non-Cisco meeting applications.

Key Features:

- > USB web camera
- > 4K Ultra HD
- > 4K at 30fps, 1080p at 60fps
- > AI Computer Vision Algorithms

Camera:

- > 13 Mp image sensor
- > 10x Digital zoom
- > 81° Diagonal field of view
- > Auto focus, brightness and white balance
- > Internal microphones
- > Privacy shutter

Audio:

- > High quality 48kHz audio
- > Background noise reduction

Input Output:

- > 1x USB 3.0 type C
- > IR sensor

Cisco Webex Speaker Track 60

Product Overview:

The Cisco Webex SpeakerTrack 60 is an unparalleled dual-camera system that allows participants in a video meeting to see the active speaker on the other end of a call in full view.

Key Features:

- > Dual Precision 60 PTZ cameras
- > 1080p
- > 60 fps
- > Full Speaker Tracking ability
- > Can be purchased separately for the webex Room Kit Pro

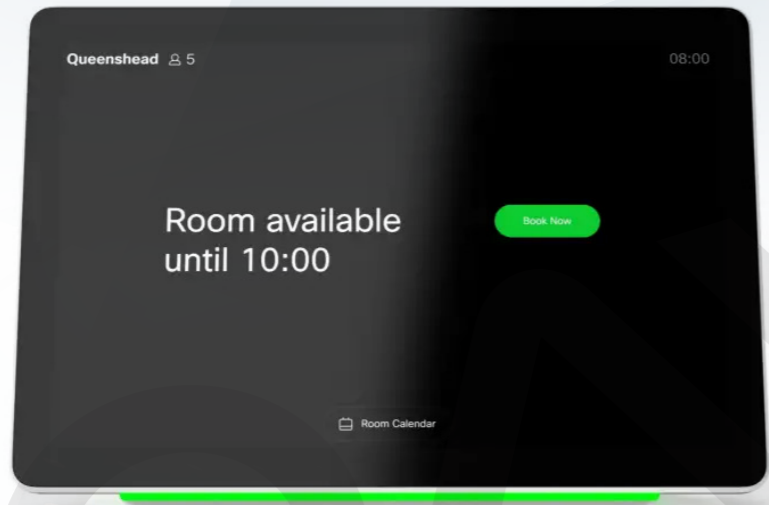

Camera:

- > 4K image sensor
- > 20x Total zoom
- > 10x Optical zoom
- > 2x Digital zoom
- > 80° Field of view
- > Pan angle: +/- 100°
- > Tilt angle: +/- 20°
- > Auto focus, brightness and white balance
- > SpeakerTrack microphones

Input Output:

- > 2x HDMI output
- > 1x Ethernet for camera control

Accessories

All the peripherals to enhance your Cisco Webex setup.

Transform your workplace with simple and intelligent experiences while eliminating the friction from the employee journey. The wall-mount Webex Room Navigator touch panel is designed to bring

ease and convenience into modern workspaces by providing instant access to conference controls, smart room booking, room controls and your go-to workplace applications.

Webex Room Navigator

Microphones

Key Features & Benefits:

- > The Webex Room Navigator offers room intelligence in a box, bringing efficiency, usability and aesthetics to your workspaces. Recognized in the Red Dot Design Awards, this room panel delivers smooth integration with collaboration endpoints and third-party applications, unmatched room intelligence, and UI consistency in a cost-effective, scalable and simple way.
- > It unlocks the best combination of user-centric design, purpose-built hardware, native software and an open approach to integration out of the box to help you transform your physical workspaces.
- > Webex Room Navigator is a competitive, feature-rich and highly flexible solution that can be used either as a room and conference control panel or a dedicated scheduling display, has a robust device management platform, and offers rich sensor data that supports creating a safer and optimized workspace environment.

Product Compatibility:

- > Cisco Webex Room Kit Series, Cisco Webex Room55 and Room70 Series, Cisco Webex Room Panorama, Cisco Webex Board 55S, 70S, 85S

Cisco Table Microphone

Cisco Microphone Array

Cisco Ceiling Microphone

Product overview

Cisco microphones provide a range of audio coverage solutions for both integrated video systems and custom video deployments - either on the table or discreetly through the ceiling. The microphones are optimized for voice and designed for use in small-to-large collaboration meeting rooms and specialised spaces with state-of-the-art audio quality.

Webex Room Navigator

The Cisco Webex Room Navigator control unit is an intuitive device designed to give you access to several room controls, such as: controlling Cisco video conferencing systems, booking a room and controlling amenities within the room.

This touch-based unit is optimized for an effortless user experience – from launching and ending a video or audio conference, to sharing content, and viewing contact lists and directories.

Cisco Multihead Cables

Cisco multi-head cables provide flexibility and pleasing aesthetics in meeting rooms, and hassle-free content sharing for the user. The cables can connect a wide range of laptops to a Cisco video-conferencing systems without the hassle of using multiple dongles.

They clean up the meeting space with a sleek single-cable design while ensuring the quality of the signal up to a 29.5-foot range. And users don't need to worry about bringing the right dongles to the meetings. Available in 1080p or 4k versions.

Cisco WebEx Share

Cisco WebEx Share is a device that provides high-quality, cable-free content sharing for local meetings on any HDMI display. It transforms any display into a Webex wireless presentation screen. Its integration with the world's most popular meeting app, Cisco Webex, enables users to share content from their devices.

Using the Cisco Webex Teams or Webex Meetings apps, users are able to share content locally in a physical room, eliminating the need to huddle around a laptop. Users running the Webex Teams app can also display content on their screen from users who are sharing remotely in a Cisco Webex Teams meeting.

3rd Party Audio

Microphones / DSP / Amplification / Speakers

Product overview

The integrator versions of the Cisco Webex range are designed to accept 3rd party audio products from the proAV recommended 3rd party manufacturers detailed below.

SHURE
SOUND EXTRAORDINARY

 **SENNHEISER**

 **CRESTRON**

QSC

biamp.

Turn any desk into your private workspace with Webex Desk Series devices. Easily identify an available desk with simple on-screen status indicator and experience the benefits from a

dedicated all-in-one collaboration device to improve productivity in any flexible seating workspace.

Webex Desk Series

(Business-class HD video at any desk)

Webex Desk Mini

- > The Webex Desk Mini is a portable all-in-one collaboration device that enables you to make any space an office. Easily turn your dining room or any small space into a productive workspace.
- > The Webex Desk Mini is designed with an integrated handle which makes it easy to move around from one room to another. It also comes equipped with privacy features such as noise removal, video backgrounds and easy access to in-meeting controls — so you can always show up and look professional in meetings even from your kitchen or living room.
- > Providing everything you need to work; with its USB-C connection you can double up your screen real estate, interact with any laptop content and applications as well as join any conference app running on your laptop. It's the perfect work companion to your laptop with a 64-degree, 8 MP camera, intelligent microphone array for focused sound pickup and powerful speaker system you get a high-quality video and audio experience every time.

The Webex Desk Pro is fully enabled for collaboration experiences and includes the same

video, audio, ideation, and APIs that are available across the Webex portfolio. With a USB-C connection, the Webex Desk Pro is your all-in-one docking station and primary monitor, offering a simple, exceptional collaboration experience that extends beyond the Webex portfolio to support your collaboration tools of choice.

Webex Desk Pro

(for the Desktop and Small Personal Spaces)

Webex Desk

Key Features:

Work smarter: AI-powered features like Webex Assistant and facial recognition allow you to easily control your meeting and provide the contextual information you need, when you need it.

- > Seamless co-creation: Ideation tools like digital whiteboarding make brainstorming, design, and collaboration easy, whether in person or in a remote meeting.
- > Join any meeting: Connecting a laptop with USB-C enables you to join meetings from third-party meeting providers while leveraging the Webex Desk Pro's camera, speaker, and microphone.

Key Features:

- > The Webex® Desk is the all-in-one collaboration and productivity device for your desk—at home, in the office, or in a shared space. It is purpose-built for collaborating, whether you're in a meeting, sharing your laptop screen, or brainstorming with a teammate. The Webex Desk device features a 24-inch, interactive 1080p display, 64-degree 8MP camera, full-range speaker, and a mic array with AI-powered background noise removal.
- > This powerful device creates a clutter-free desk space, enabling you to be organized and productive. Manage your workday with dynamic layouts and custom views, take the strain off your laptop, and optimize your meetings—all from a single system.
- > Meet without distractions or background noise. Rock a presentation with immersive sharing. Co-create with digital whiteboarding and live content annotations.
- > Easy setup and management capabilities allow customers to deploy and support thousands of devices at once. And with Control Hub you'll gain insight into environmental health and device usage with the ability to triage issues from anywhere.

Stylus pen sold separately

The Webex Desk Hub is a new desktop device targeted to enable the next generation of transformed office spaces for shared and dedicated desks or home office. The Desk Hub has a modular form factor and unique experiences designed for Hot Desking, Hoteling, and advanced Collaboration. The Desk Hub will sit within the single portfolio for Webex Collaboration devices and be a bridge

between video phones and their integrated video endpoints like the Webex Desk or Webex Desk Pro. The Webex Desk Hub has unique hardware and software capabilities which enable shared office space use cases like seamless Desk Reservation, built-in IOT sensors, and Personalized Experiences for the reserved user.

Webex Desk Hub

Key Features:

- > Premium video device - Enjoy 4K camera, 4K content, and intelligent collaboration such as noise removal, best overview and full interoperability.
- > Hotdesking with Wireless pairing - Authenticate and reserve using your NFC mobile phone, plus charge it at the same time. Your laptop and headset will get charged too!
- > Touchless experiences - Use Webex assistant voice commands to view and join meetings, view your calendar, and more.
- > Calendar integration - Get a personalized experience by seeing your upcoming meetings and join them from the Webex Desk Hub.
- > Digital signage - Stay informed by knowing when a desk is open, reserved, sanitised or needs to be cleaned using digital signage.

The Cisco Headset portfolio includes a range of single-ear and dual-ear models, wired and wireless options, plus a variety of connection options so you can experience great sound no matter what your job requires.

Product Overview:

The Cisco Webex Room Phone is much more than a conference phone. Connect to any external HD display and unlock content sharing, digital signage with Appspace and a great in-meeting experience.

Key Features:

- > HD voice for calls and meetings:
- > Acoustic echo cancellation and noise reduction removes distractions from calls and meetings.

Easily join meetings:

- > View the room calendar, join via the Webex button, or Zero-touch with proximity pairing from Webex apps.

Smart presentations and guest sharing:

- > Share locally or in-meeting wirelessly from Webex apps. Your guests can share through a Web browser or using the HDMI cable.

Simple design familiar interface:

- > A brilliant 6-inch, full HD touchscreen provides immediate access to meetings, calling, directories, and content.

Webex experience on a phone:

- > This phone provides a superior in-meeting experience, with an external display, a participant list, and active speaker features.

Increase screen productivity:

- > Extend the use of all office screens with digital signage and deliver content to screens.

Management Tools

Webex Control Hub offers a holistic view of all your Cisco Webex services, helping you manage all your users, devices and security in one place. This intuitive single pane of glass management portal provides one central cloud

app for all your administrative functions with detailed analytics and reporting. You can even configure security and compliance policies to help keep your data safe and meet regulatory needs.

Webex Control Hub

TelePresence Management Suite (TMS)

Deploy large-scale telepresence and on-premises video conferencing quickly and easily with Cisco TelePresence Management Suite. Join meetings

from any video-equipped mobile, desktop, or room system. Cisco TMS works with Cisco Meeting Server and Cisco TelePresence Server.

Benefits:

- > Simplify administration with one single pane of glass for all your Cisco Webex® Meetings, Webex Calling, and Webex Teams™ services and Cisco® Webex Devices
- > Get up and running quickly with out-of-the-box role definitions and Active Directory integration
- > Customise security, compliance settings, and user entitlements to address your business needs with highly flexible policy controls
- > Proactively monitor quality of service and address issues before they have an impact
- > Understand your ROI with fast access to detailed utilisation metrics for each user, each device, and each service
- > Quickly add and configure Webex users and easily define their service entitlement
- > Configure permissions and security and compliance settings to comply with your business requirements
- > Understand adoption and utilisation at a glance
- > Drill down into detailed metrics quickly and easily
- > Define and create reports to highlight trends

Key Features:

Large-scale telepresence provisioning: With simplified configuration, the suite supports cost-effective, rapid deployment of up to 100,000 telepresence users, endpoints, and soft clients across disparate customer locations. It also supports up to 5,000 direct managed devices.

Flexible scheduling:

TelePresence Management Suite integrates phone books from various external information sources and existing directories. Your IT staff can provide scalable, multivendor infrastructure support across your telepresence network.

Simple design familiar interface:

You can also use it with extensions for Microsoft Exchange to schedule meetings directly from Microsoft Outlook clients.

Better resource management:

Cisco TelePresence Management Suite offers easy contacts management, centralised administration, and centralized configuration management. Dashboards and status indicators provide an overview of your telepresence network.
