client: University of Salford

The University of Salford has developed into a dynamic and cosmopolitan institution with a first-class reputation for real-world teaching and ground breaking research. With a historic tradition of innovative thinking and commercial success the University of Salford is widely regarded as one of the UK's most enterprising universities.

the brief:

proAV® have developed a relationship over the last three years with the University and have completed a number of projects. The Universities requirements have typically been based upon a balance between performance and cost.

installation (the delivery):

It was necessary to work closely with the University to programme much of the works around a live teaching timetable, with as little disruption as possible.
