Hybrid working – aligning technology between the meeting room and the desktop

Introduction

Hybrid working is a type of flexible working where the employee splits their time between the workplace and remote working.

Whilst proAV's core offering surrounds Unified Communications in meeting rooms and collaboration spaces, here we look to guide you through technology to enhance the experience at the desktop (whether in the office or remotely), to align with the experience in the meeting room.

Through this technology alignment, high productivity and efficient meetings can be achieved, regardless of where you work on a given day.

Poly USB Coded Headsets

Entry level range for voice, music and multimedia. Ideal for new UC deployments on a budget

BLACKWIRE 3300 SERIES

- > Features great audio and a modern design
- > Mobile connectivity with USB-A/USB-C with 3.5 mm (BW3315/BW3325)
- > Intuitive inline controls for call answer/end, mute, volume +/-
- > Supports long-wearing comfort with a comfortable, padded headband and soft ear cushions
- > Compatible with Microsoft Teams and Zoom

Designed for users with extensive PC communication and ideal for all day use, long conference calls and listening to multimedia

BLACKWIRE 5200 SERIES

- > Connects to PC and Mac via USB-A/USB-C, smartphone, and tablet via 3.5 mm
- > Intuitive inline controls to answer/end calls, control volume, and mute
- > Dynamic EQ feature automatically adjusts audio for voice and multimedia use
- > Compatible with Microsoft Teams and Zoom

Premium headset with dedicated Microsoft Teams button for instant access. Ideal for users working in a distracting open office/home office

BLACKWIRE 8225

- > Flexible, noise-cancelling microphone with Poly Acoustic Fence technology
- > Advanced hybrid active noise cancelling (ANC) with three settings to optimise
- > On-call indicator lets others know when you're on a call
- > USB-A or USB-C connectivity
- > Compatible with Microsoft Teams and Zoom

 poly
Desktop devices

Ideal for mobile professionals who need a discreet, portable bluetooth headset

VOYAGER 5200 UC

- > All-day comfort, discreet wearing style
- > Clear and professional communication
- > Connect to your PC/Mac with the USB adapter or mobile phone with Bluetooth
- > Portable charging case for powering up anytime, anywhere
- > Compatible with Microsoft Teams and Zoom

Ideal for office and remote professionals who need a comfortable Bluetooth neckband headset with earbuds

VOYAGER 6200 UC

- > Boomless design features four omni-directional microphones and active noise canceling (ANC)
- > Comfort-fit earbuds deliver hi-fi stereo
- > Neckband vibrates to alert you to incoming calls
- > Pairs with up to eight devices and connects to two simultaneously
- > Compatible with Microsoft Teams and Zoom

Ideal for professionals who work in distracting environments, on the go or in the office/home office

VOYAGER 8200 UC

- > Boomless, dual-paired, omni-directional microphones with enhanced digital signal processing (DSP)

- > Built-in directional microphone
- > Automatic low-light compensation
- > Exceptional camera optics
- > Brilliant colours optimised to make you look your best
- > Camera view designed to show just you and not too much
- > Supported by Zoom

Design features

- > Status LED
- > Integrated privacy shutter
- > USB connection to wireless headset adapter
- > Tripod-ready
- > Small and rugged for portability
- > Poly Lens desktop app controls settings and updates
- > Easily fits atop laptop or display
- > Poly Lens cloud management

Poly Studio P5 with Blackwire 3210 headset

- > Professional webcam and single-ear headset kit
- > Ideal for the multi-tasking professional to stay tuned into your surroundings
- > Exceptional camera optics
- > Single-ear wearing style to stay tuned into the surrounding environment
- > Brilliant colours and automatic low-light compensation
- > High-quality audio and noise cancelling mics

Poly Studio P5 with Blackwire 3325 headset

- > Professional webcam and single-ear headset kit
- > Ideal for the work-from-anywhere professional needing high performance calls at an affordable price
- > Exceptional camera optics
- > Brilliant colors and automatic low-light compensation
- > Hear every conversation clearly with crisp, stereo audio
- > High-quality audio and noise cancelling mics

Poly Studio P5 with Blackwire 4220 headset

- > Professional webcam and stereo wireless headset kit
- > Ideal for high performance calls with freedom to move
- > Exceptional camera optics
- > Brilliant colors and automatic low-light compensation
- > Headset wireless adapter connects directly to webcam
- > Crisp stereo audio and noise cancelling dual headset mics
- > Class 1 v5.0 Bluetooth roaming for greater range and flexibility

Poly Studio P5 with Sync 20 speakerphone

- > Professional webcam and smart speakerphone kit
- > Ideal for the high-performance professional in an enclosed workspace
- > Exceptional camera optics
- > Brilliant colours and automatic low-light compensation
- > Speakerphone wireless adapter connects directly to webcam
- > Full duplex audio and three-microphone steerable array
- > Bass reflex system with dual passive radiators
- > Up to 20 hours of speakerphone battery life

Poly USB/Bluetooth Smart Speakerphones

Poly Studio P15 – Personal Video Bar

The personal video bar that's the closest thing to being there

- > Look and sound your best on video calls with one sleek device
- > Easily fits atop your display, or tripod mount for flexibility
- > Robust cloud management using Poly Lens

- > 4K resolution
- > High-performance image sensor
- > Optimised field of view
- > Automatic low-light compensation and brilliant Automatic camera framing
- > Integrated privacy shutter
- > Integrated speaker with acoustic suspension
- > Advanced microphone array
- > NoiseBlockAI
- > Acoustic Fence

The personal meeting display where form and function unite

- > Everything you need in one sleek, stylish device
- > Simple to set up and connect
- > Works with any app
- > Dedicated video display when you're in calls, additional PC/Mac display when you're not

Video and audio features

- > 21" enterprise-grade display
- > Exceptional camera optics
- > Integrated ambient lighting
- > Integrated microphone with powerful stereo speakers
- > Supported by Zoom

Audio features

- > Integrated privacy shutter
- > LED status bar
- > Easy access controls

- > Wireless phone charging

Poly Lens Desktop

Make the most of your meetings with Poly Lens Desktop. A single app for customising your personal devices to how you work, whether that's in the home or office. Staying up to date with the latest software is easy as a click, now, or when it suits your schedule. With built-in, customisable health and wellness reminders, you'll feel better throughout the workday staying hydrated and active. Staying on-task is easier when you mask distractions with our focus audio. Rest easy knowing that help is no more than a click away with guides and contact information.

Benefits:

- > Customise your personal device to meet your collaborative needs and workstyle
- > Accept built-in notices letting you know when an update is available and ready for install
- > Customisable reminders that make sure you get the hydration and breaks you need to stay productive
- > Get more done throughout your day while minimising common distractions found in the home or office setting with focus audio
- > With built-in self-help guides, support information, and troubleshooting tools you'll minimise disruption to your workday

Cisco Headsets

The Cisco Headset portfolio includes a range of single-ear and dual-ear models, wired and wireless options, plus a variety of connection options so you can experience great sound no matter what your job requires.

Cisco® 520 Series Headsets

Product Overview:

The Cisco Headset 520 Series offers wired USB models with 3.5mm audio interface to let you use it for multiple scenarios. Deep integration with Cisco Devices and clients for easy setup and effortless administration.

Vibrant audio and voice

Optimised for open offices with bold sound, with exceptional noise isolation, and unidirectional microphones that hone in on your voice.

All day comfort

The lightweight and ergonomic design of Cisco Headsets put comfort front and center. They reduce head fatigue, so you can wear them all day long. You may even forget you're wearing them. The headsets are built with quality materials including soft, multiaxial ear cups.

Reliability

Cisco headsets are designed with deep integrations for Cisco IP phones, Webex devices, and Webex apps.

Product Overview:

Maximise your investment with affordable wired headsets designed for everyday office use with enhanced productivity features.

Uncompromised functionality

Affordability doesn't mean compromising on functionality. With the 320 headsets you will find a lightweight design and clear audio with a directional microphone and noise cancellation.

Easy setup

A plug and play setup saves time and offers quick deployments for new employees. Enjoy an easy setup with deep integrations for Cisco IP phones, Webex devices, and Webex apps.

Productivity features

Quickly join meetings without digging through your on-screen applications with the Webex button. When it's time for a meeting, users will receive an alert via the LED button and an in-ear notification.

Cisco® 320 Series Headsets

Cisco® 530 Series Headsets

Product Overview:

Focus on what matters, with this Bluetooth® wireless headset for the home, the office and the journey between.

Clear Voice Technology

Cisco's voice honing, boom less design coupled with noise cancellation, background noise suppression, and side tone enabling crystal clear audio. Anytime.

Customisable audio

Exceptional audio experience with advanced codecs, 40mm speakers, and customisation on the go in the Cisco Headsets mobile app. At the touch of a finger, quickly adjust equalizer settings, configure headset features, or troubleshoot issues.

Enterprise grade security

Industries first, enterprise-grade security with hardware protection through secure boot and software protections through.

Bang & Olufsen Cisco 980

Product Overview:

The Bang & Olufsen Cisco 980 delivers an engaging, high-end audio experience for phone calls, video meetings and listening to music.

Enhanced features for business

Enhanced with all the best qualities for professional use with features such as Bluetooth 5.1, 24-hour battery life, convenient on-ear call controls, enterprise grade security, and an included premium hard sided carrying case for travel.

Lasting comfort

Designed to provide ultra-high, all-day comfort with a crafted lightweight structure and premium materials including high grain leather, memory foam, and aluminium.

Crystal clear communication

Packed with technology that enhances communication. The 6 geometrically placed microphones isolate your voice and cancel out background noise using advanced algorithms.

Webex Desk Series

(Business-class HD video at any desk)

Turn any desk into your private workspace with Webex Desk Series devices. Easily identify an available desk with simple on-screen status indicator and experience the benefits from a dedicated all-in-one collaboration device to improve productivity in any flexible seating workspace.

Key Features:

- > 27" 4K touch display
- > Changeable speaker grille
- > Dedicated pen with magnetic holder
- > Environmental sensors
- > Single USB-C cable for laptop connectivity
- > Can be used as USB device for PC clients

Camera:

- > 4K Ultra HD camera sensor
- > 71° Field of view
- > Automatic framing and tilt adjustment
- > Video backgrounds
- > 2x zoom
- > Automatic focus, brightness and white balance
- > Privacy shutter with LED

Audio:

- > 3.1 premium loudspeaker system
- > Directional audio
- > Frequency response: 60 Hz to 20 kHz
- > 6+2 microphone noise-cancelling array

Input Output:

- > 1 x HDMI input
- > 1 x USB-C for video input, charging, touch forwarding, camera and audio
- > 3 x USB 2.0 type A
- > Ethernet LAN
- > Ethernet PC
- > 1 x 3.5 mm stereo headphone jack
- > 1 x HDMI output (future use)

Webex Desk Mini

- > The Webex® Desk Mini is a portable all-in-one collaboration device that enables you to make any space an office. Easily turn your dining room or any small space into a productive workspace.
- > The Webex Desk Mini is designed with an integrated handle which makes it easy to move around from one room to another. It also comes equipped with privacy features such as noise removal, video backgrounds and easy access to in-meeting controls – so you can always show up and look professional in meetings even from your kitchen or living room.
- > Providing everything you need to work; with its USB-C connection you can double up your screen real estate, interact with any laptop content and applications as well as join any conference app running on your laptop. It's the perfect work companion to your laptop with a 64-degree, 8 MP camera, intelligent microphone array for focused sound pickup and powerful speaker system you get a high-quality video and audio experience every time.
- > Webex Desk Mini is an all-in-one collaboration device optimised to serve your needs to meet, work and ideate. It's a versatile, compact and affordable device, designed to be your hybrid and remote work companion.

- > The Webex® Desk is the all-in-one collaboration and productivity device for your desk—at home, in the office, or in a shared space. It is purpose-built for collaborating, whether you're in a meeting, sharing your laptop screen, or brainstorming with a teammate. The Webex Desk device features a 24-inch, interactive 1080p display, 64-degree 8MP camera, full-range speaker, and a mic array with AI-powered background noise removal.
- > This powerful device creates a clutter-free desk space, enabling you to be organized and productive. Manage your workday with dynamic layouts and custom views, take the strain off your laptop, and optimize your meetings—all from a single system.
- > Meet without distractions or background noise. Rock a presentation with immersive sharing. Co-create with digital whiteboarding and live content annotations.
- > Easy setup and management capabilities allow customers to deploy and support thousands of devices at once. And with Control Hub you'll gain insight into environmental health and device usage with the ability to triage issues from anywhere.

Stylus pen sold separately

Product Overview:

Cisco Webex® Desk Camera is a premium USB web camera that provides high-quality video and audio for video conferencing, video streaming, and video recording. It brings superior 4K video, high-quality microphone audio, intelligent AI-based features, IT device management no matter where you are.

It is designed to work on Windows and MacOS PC as a standard video device and is compatible with any Cisco or non-Cisco meeting applications.

Key Features:

- > USB web camera
- > 4K Ultra HD
- > 4K at 30fps, 1080p at 60fps
- > AI Computer Vision Algorithms

Camera:

- > 13 MP image sensor
- > 10x Digital zoom
- > 81° Diagonal field of view
- > Auto focus, brightness and white balance
- > Internal microphones
- > Privacy shutter

Audio:

- > High quality 48kHz audio
- > Background noise reduction

Input Output:

- > 1 x USB 3.0 type C
- > IR sensor

Cisco Webex DX80 is an all-in-one collaboration display designed for the desktop. Discover a delightful new approach to working that is simple to use and offers a no-compromise collaboration

experience. Upgrade your desktop with a virtual collaboration experience so stunning you will feel as though you and other participants are in the same room.

Key Features:

- > Fully integrated unit that includes codec, camera, 23" FHD touch display, microphones and loudspeaker

Camera:

- > Full HD camera
- > 63° Field of View
- > Camera tilt -5° to 70°
- > Camera can be used as document camera when tilted down
- > Automatic focus, brightness and white balance
- > Privacy shutter

Audio:

- > Integrated full range speaker
- > Optimised for voice
- > Frequency response: 70 Hz to 20kHz
- > Two dual-microphone arrays

- > 3 x USB 2.0 type A
- > Ethernet LAN
- > Ethernet PC
- > 1 x 3.5 mm stereo headphone jack
- > 1 x HDMI output (future use)

logitech®
Desktop devices

Find the Logitech headset that's right for you. Logitech features a wide range of office and home headsets for any number of uses, from taking calls, telecommuting, video conferencing, or even listening to music. Our headsets are multitaskers that block noise and allow you to perform any number of tasks, even in a busy environment. Headsets make work and life easier. They free up your hands so you can compute while you talk; voice filters make you sound sharper and clearer in calls and video meetings. Choose between a wide selection of wired and wireless headsets that connect to your computer, laptop, smartphones or tablet.

Wired Headsets

Wired headsets can feature one of two ways to connect, via a USB-A cable or a 3.5 mm jack. Wired headsets are compatible with most operating systems, providing easy plug-and-play solutions for calls, video meetings, webinars, online training, or even gaming. With some models, simple in-line controls located on the cord or ear cup let you easily adjust volume, mute calls, and more without disruption. You can also adjust sound settings with the on-screen volume controls accessible via your computer, laptop, tablet, or smartphone.

Wireless Headsets

Wireless headsets connect via Bluetooth® or a USB-A receiver. Wireless headsets from Logitech offer all the features of their wired counterparts along with the freedom to get up, stretch, and move around while still using your headset. Use your wireless headset to take phone calls, join and initiate video meetings, and listen to music. Even without the cord, you can still adjust volume, mute calls, and make music selections. Simple on-ear controls make this possible. The added freedom is helpful not just for people who work in a busy office setting. It's also useful for working at home. Working hands-free opens up the ability to make coffee, let the cat out, and perform any number of home or work-related tasks while staying on the line.

Noise cancelling Microphone

The microphone is an important part of the headset experience—it's how people on calls or in meetings hear you. A noise-cancelling mic works to reduce background noise, so you come through loud and clear. This is possible through microphone technology as well as software, some of which can even improve the quality of your voice while eliminating any pops or hisses. If you work in a busy office and have to take calls at your desk, this feature could be a real lifesaver.

Active noise cancellation

Active noise cancellation (ANC) reduces ambient sounds around you—like fans and air conditioning—so you can hear your calls and focus without distraction. This is possible through a variety of mic technologies and software algorithms that cancel noise. This allows you to continue working without having to turn up the volume or change your environment. It makes your work life easier.

Business users who take calls from their computers in open workspaces, offices, or home offices will appreciate the comfortable design of the classic H820e, H650e and H570e headsets.

With intuitive on-ear or in-line controls and noise-cancelling mics, these headsets are designed for busy professionals who need audio clarity, whether on conference calls with clients or quick check-ins with colleagues.

Available in both mono and stereo options, these headsets are intended to make calls easy and productive.

Logitech Zone Portfolio

As businesses embrace video collaboration, Logitech solutions can help you look and sound great on video calls. Logitech Zone portfolio takes sound quality one step further by enabling you to define your soundscape.

You can transition easily from talking to music, or general noise reduction for when you need to get stuff done. Equipped with a noise-cancelling microphone, you can be sure that your voice, and not the noise around you, is heard on the other end of the call.

Certified for business with leading video calling platforms, Zone headsets and earbuds are easy to use with computers, laptops, tablets, and smartphones. Whether for collaboration, communication or concentration, Zone portfolio is made for every work mode.

Kit contents:

- > Brio Ultra HD Pro Webcam (USB 3.0 cable, Attachable privacy shutter, Removable clip, Carrying pouch)
- > Zone True Wireless earbuds (USB-A receiver, USB-C adapter, Wireless charging case, Charging cable, Travel bag, Replaceable ear gels - S, M, L)
- > User documentation

Logitech Mobile Speakerphone P710e

Turn any workspace into an instant conference room. The Logitech Mobile Speakerphone P710e gives you hands-free calling and great audio for your phone or tablet. Noise-cancelling technology helps ensure everyone can hear and be heard. Pair up to eight Bluetooth® devices or connect with NFC by simply touching a device to the P710e. Take your next conference call almost anywhere.

Additional features: Integrated Stand

An integrated stand positions a mobile phone or tablet at just the right angle for shake-free video calls and hands-free access to the mobile screen.

Optimised for voice and music

A dynamic equaliser automatically switches between voice and music modes, delivering the best sound quality for what the user is listening to.

Noise & Echo Cancellation

With acoustic echo cancellation and a noise-cancelling microphone, P710e is optimised so you can hear and be heard, even in noisy workspaces.

Touch Control

Touch controls with LED indicators provide excellent response without transmitting audible noise through the audio path.

Long battery life

Up to 15 hours of talk time between charges the Mobile Speakerphone P710e outlasts the longest workday.

Integrated USB cable

The USB cable is hardwired into the speakerphone so it's never lost and neatly coils away beneath the unit when not in use.

Logi Dock is an all-in-one dock for your workspace that simplifies the connections to all your devices.

Features:

- > Single cable dock
- > WFH handsfree audio
- > Automatic audio switch
- > Simple meeting controls
- > Device management

 **Huddly**
Desktop devices

Huddly ONE is designed for one-person scenarios. It features Full-HD, wide-angle video and intelligently adjusts image brightness. ONE works on Mac and PC, with any app. Huddly ONE is certified for Microsoft Teams and Zoom and is compatible with all leading services and operating systems.

Additional features:
Desktop Framing

A default zoom level customized to best suit the one-person home office scenario. The framing can be adjusted to suit personal preference anytime.

Digital Pan/Tilt/Zoom

The camera has no moving parts, allowing Pan, Tilt, and Zoom functions to be adjusted smoothly, silently and instantly.

Software-Upgradable

The camera gets even smarter over time with regular software enhancements and new intelligent features.

Real-Time Dewarping

The camera's wide-angle image is dewarped and perspective corrected in real time, rendering a natural, true-to-life view.

Portrait Lighting

The camera uses AI to understand the lighting conditions in the image. It automatically adjusts exposure to ensure that faces are well-lit and facial expressions are clearly visible.

Huddly One for Home Office

SRH240A

Professional Quality Headphones

How it works

The SRH240A Headphones provide excellent sound reproduction and comfort for both professional and home use. With 40 mm neodymium dynamic drivers, the SRH240A Headphones deliver full bass and detailed highs. Impedance, power handling and sensitivity are all calibrated for consumer and professional audio devices. Includes threaded 1/4" (6.3 mm) nickel-plated adapter.

Features

- > Wide frequency range that delivers full bass, clear mids and highs
- > Optimised performance for high quality listening and everyday use in meetings or online participation
- > Padded headband & ear cups for ergonomic, comfortable fit
- > Closed-back, circumaural design rests comfortably over the ears and reduces background noise
- > Legendary Shure quality withstands the rigors of everyday use
- > Includes threaded 1/4" (6.3 mm) nickel-plated adapter and two-year warranty

MV5C

Home Office Microphone

Make sure you are heard clearly during important presentations and meetings with professional sound from the MV5C Home Office Microphone. The MV5C will help you sound great from the comfort of your desk, and it can be used with or without headphones. Simply connect via USB to a Mac or Windows computer. Compatible with all third-party software conferencing platforms including Zoom and Microsoft Teams.

How it works

The MV5C is an essential tool for the home office that connects directly to your Mac or Windows computer via USB cable and significantly enhances the audio quality of your voice.

Speech Enhancement Mode and an adjustable desktop mount ensure your voice always sounds clear.

Features

- > Great for video conferences, podcasting, streaming, webinars and voice overs.
- > Created by world-class engineering and design experts
- > Optimised for premium speech audio quality
- > Classic design style fits in premium home office setups
- > Home conferencing for Mac or Windows

Save money with a bundle!

MV5A-240 BNDL

Shure mobile Conference kit

Features

- > This Shure portable conference kit allows you to take that premium quality audio experience on the road with you.
- > The SRH240 headphones isolate you from surrounding distractions and provide great audio quality in your meeting.
- > The MV5C USB microphone is plug and play straight into your Mac/PC and enables your voice to be captured precisely so that you sound your best in order to captivate the other participants.
- > Wearing the headphones connected to the MV5C means that you can also hear your own voice as well as the meeting so that you don't feel disconnected from surroundings or the call itself.

MV7
Home Office Microphone

How it works

Inspired by the legendary SM7B, the MV7 is a dynamic close-pickup microphone with both USB and XLR outputs for use with computers and professional interfaces alike. Connect via USB and explore additional set-up features and Auto Level Mode within our ShurePlus™ MOTIV app. With Auto Level Mode, you can let the microphone do the work for you.

Leveraging its studio design and tight polar pattern this unit provides the user with ultimate voice pickup clarity for really standing out from the crowd in an online meeting. Headphone output provides real time monitoring of your own voice plus also relaying the audio from your meeting so that you don't feel disconnected from surroundings.

Voice Isolation Technology:

The MV7's unique pick-up pattern keeps it laser-focused on your voice and prevents any unwanted background or room noise from interrupting your meeting.

Integration With ShurePlus™ MOTIV Apps:

Leave nothing to chance; configure and set up the microphone using the ShurePlus™ MOTIV app so that it's best suited for you. Choose from Auto Level Mode if you want a 'set it and forget it' microphone, or Manual Mode if you want to get more hands-on with the features.

Customisable Sound Signature:

Choose your sound and pick your voice tone from either 'dark', 'natural' or 'bright' within the ShurePlus™ MOTIV app. You can now get that deep 'radio' sound you've always wanted.

SAMSUNG

Innovative displays
that power your
performance

Work clutter-free and stress-free

Ditch the clutter and enjoy simplicity. Samsung high-resolution monitors features a USB type-C port to power your laptop and transmit data with just one cable. With multiple USB 3.0 ports, you can also plug devices directly into the monitor for a clearer, cleaner workspace.

SHARP / NEC
Desktop Displays

Adapting to new working practices

Supporting open office standards in hot desking and “bring your own device”, plus business-critical home working, NEC’s USB-C enabled desktop monitors are fully future-proofed with a high level of connectivity and flexibility.

Break free of cable clutter - Powerful 65W USB-C connectivity means just a single cable connects your monitor to a laptop or tablet, as well as charging your devices for an all-in-one communications hub.

NEC MultiSync® EA242F - LCD 23.8" Enterprise Display

What is it

Break free of cable clutter and enjoy a single, all-encompassing communications hub via this workspace centrepiece, the MultiSync® E243F display. The 24" office workhorse featuring powerful 65W USB Type-C connectivity, manages video, audio, power and USB via a single cable. Supporting new open office standards in hot desking and 'bring your own device', the display is fully future-proofed with a high level of connectivity flexibility.

Benefits

- > Newest USB Type-C connectivity standard – optimize connectivity and declutter your desk; replace video, audio, power and USB cabling with just a single cable to connect your notebook/tablet PC with the display.
- > Future-proof flexibility – wide connectivity provides high-level flexibility with DP, HDMI, USB Type C, USB A and audio output.
- > Safeguarding user wellbeing – built-in Low Blue Light technology filters out hazardous blue light emissions whilst Flicker-Free technology eliminates any backlight flickering, thus protecting the users' eyes against cataracts and macular degeneration.
- > Ergonomic Office – full height adjustability (130 mm), swivel, tilt and pivot functionality ensures perfect individual ergonomic set-up.
- > Best in form and function – future-ready design with 3-sided ultra-narrow bezel, available in black or white, plus optional VESA mount plate for thin client devices.

NEC MultiSync® E243F - LCD 24" Enterprise Display

What is it

Powering your PC/notebook and all your devices through a single cable, the MultiSync® EA242F is your workspace hub; no docking station required, the 65W USB-C connection means an efficient, clutter-free workstation from which to manage your communications. Easily increase your display area using DisplayPort-out to daisy-chain multiple displays, no additional cabling required.

Benefits

- > In-demand display size – the popular 23.8" display with Full HD resolution is the perfect size for busy office workspaces
- > Future-proof flexibility – wide connectivity provides high-level flexibility with DP, HDMI, USB Type C, USB A and audio output.
- > Clutter-free workspace – Powerful 65W USB Type-C connectivity manages video, audio, power and USB via a single cable
- > Easy multi-screen set-up – Daisy-chain multiple display configurations through DisplayPort-out, no additional cables needed
- > Maximum attention to health and well-being – the outstanding ergonomic height adjustment from 0 to 150 mm; eye
- > Pleasing built-in Low Blue Light and Flicker-Free technology; plus integrated ambient light sensor all combines to tailor the perfect individual setup to boost productivity.

**NEC MultiSync® EA272F - LCD
27" Enterprise Display**

What is it

Powering your PC/notebook and all your devices through a single cable, the MultiSync® EA272F is your workspace hub; no docking station required, the 65W USB-C connection means an efficient, clutter-free workstation from which to manage your communications. Easily increase your display area using DisplayPort-out to daisy-chain multiple displays, no additional cabling required.

Benefits

- > In-demand display size – the popular 27.0" display with Full HD resolution is the perfect size for busy office workspaces.
- > Clutter-free workspace – Powerful 65W USB Type-C connectivity manages video, audio, power and USB via a single cable
- > Future-proof flexibility – wide connectivity provides high-level flexibility with DP, HDMI, USB Type C, USB A and audio output.
- > Easy multi-screen set-up – Daisy-chain multiple display configurations through DisplayPort-out, no additional cables needed
- > Maximum attention to health and well-being – the outstanding ergonomic height adjustment from 0 to 150 mm; eye pleasing built-in Low Blue Light and Flicker-Free technology; plus integrated ambient light sensor all combines to tailor the perfect individual setup to boost productivity.

NEC MultiSync® WD551 LCD 55" Windows Collaboration Display

What is it

For frictionless meeting experiences, with instant access whether in-room or remote, Sharp/NEC's Windows Collaboration Display is an all-in-one solution for modern meeting spaces. Supporting "Bring Your Own Meeting (BYOM)" scenarios, users simply connect their own device via an USB-C cable to immediately share content and start video meetings using already familiar Microsoft tools.

Benefits

- > Bring your own meeting (BYOM) – a simple, unified solution for instant start-up meetings using any device.
- > Seamless, clutter-free connection – a single secure USB-C cable connects your device with the display to auto sync the builtin camera, speakers, mic, touch and pens. Your notebook will be charged while connected.
- > Certified for Microsoft Teams and more – a frictionless BYOM solution launches video meetings using your preferred conferencing platform.
- > Natural touch, easy clean – the easy to clean flush screen design reduces parallax for a superb writing experience supporting Windows Ink and palm rejection with two active pens included.
- > Smart space management – maximise usage of your meeting spaces. Microsoft Azure and NEC's cloud-based Room Management Service (RMS) draw data from in-built IoT sensors to manage analytics across your meeting spaces

Designed around you

LG UltraFine Display Ergo

Compatible with Every Posture:

The Ergo is a welcome innovation for anyone who spends a significant amount of time at their desk. LG's technologically and ergonomically advanced stand helps to promote good posture through its high degree of adjustability, enabling each user to create a perfectly customised workstation.

Full Movement of Display:

Enhanced flexibility of the Ergo stand offers expanded ergonomic adjustment of extend, retract, swivel, pivot, height and tilt as well as providing perfect position of screen for more comfortable and sustainable user experience.

Clutter-Free Desk Setup:

The compact design takes up very little desk surface and also contributes to easier installation. Helping users achieve a clutter-free environment, 27QN880's USB-C One Cable solution conveniently provides fast data transfer and power for laptop charging through a single cable.

LG Ergo Business models:

- > 27QN88027" QHD Ergo IPS Monitor with USB Type-C™
- > 32UN88031.5" UHD 4K Ergo IPS Monitor with USB Type-C™
