

## Avocor CollabTouch™

CollabTouch delivers an exceptional interactive experience in your meeting spaces with your UC Platform of choice. With options suitable for both small and large meeting rooms, anyone attending the meeting will experience crystal-clear audio and video, whether present in the room or joining remotely.

CollabTouch is available from your preferred collaboration reseller in all-in-one configurations that are easy to purchase and deploy and that utilize a single power cable for a quick and easy installation experience.

Features the Logitech Rally Bar or Rally Bar Mini conference camera and custom-made camera mount

Plug-and-play installation featuring one cable between the camera and OPS PC

Available in a range of sizes from 55" to 86" to suit every space

All solutions feature Ultra-High Definition 4K displays

Object recognition recognizes the size of the object touching it, quickly differentiating between pen, finger and palm
