

## POLY POWER MEETS MICROSOFT TEAMS

### **BENEFITS**

- Keep your meeting rooms neat—tuck the PC in a cabinet or behind the monitor with cables, and set the touch controller on a conference table with single cable connection
- Arrange the conference room to fit your needs with the generous 10 m (32.8 ft) high-speed fiber optic USB cable (25 m/40 m options available)
- Powerful audio pickup and incredible noise blocking technology allows every word to be heard without distractions
- Dynamic video experience with speaker tracking keeps meetings engaging for both room and remote participants

### **POLY ROOM SOLUTIONS FOR MICROSOFT TEAMS (G10-T, G40-T, G80-T)**

Meet Poly room solution for Microsoft Teams, latest generation Microsoft Teams Rooms solution that delivers clutter-free meeting room experience with powerful Poly signature audio and video experience.

Cleverly designed to keep the conference table and the floor free from any cable clutter, Poly room solution for Microsoft Teams is an ideal choice to be deployed in a tight meeting space to a larger conference room with a lot of space to cover. The small-form factor PC with VESA mount allows the PC and connecting cables to be hidden in the cabinet or behind the monitor. Only one single cable connects the PC and the touch controller on the conference table. Combine it with Poly USB peripherals with signature audio and video technologies, and your everyday meetings are transformed into truly powerful experiences.

- Poly GC8, 8-inch USB touch controller, provides easy touch-based operation while built-in HDMI and USB port allow user's PC and a USB device to be connected on the table.
- Poly Studio, available in Poly G40-T model, delivers dynamic meeting experience with group framing and speaker tracking driven by Poly MeetingAI, and great audio experience with Poly NoiseBlock and Acoustic Fence, ideal for small conference rooms.
- Poly Trio C60 and Poly EagleEye Director II, available in Poly G80-T model, offer best-in-class Poly signature audio and video experience enhanced with Poly NoiseBlockAI and TV-production-like speaker tracking capability.
