### Learning spaces

- **Accommodates:** > 20 people
- **Suggested viewing distance:** approx. 18 feet (5.5 m) from the screen to furthest seat

# Connect. Present. Collaborate.

## CONNECT

Dell Large Format Monitors are easy to setup and use, allowing you and your teams to connect quickly without disruption. They are software and hardware agnostic so you can use them with virtually any PC, OS or software. And, they come with a wide variety of connectivity options, so you can quickly connect to the display and seamlessly switch between presenters, allowing your audience to enjoy a smooth and continuous presentation.

## PRESENT

Captivate your audiences with impressive visuals in up to 4K resolution<sup>1</sup>. See crisp, sharp text and consistent color from virtually anywhere in the room, thanks to In-Plane Switching technology. Plus, anti-glare and anti-smudge coatings reduce distracting reflections or fingerprints to improve clarity.

## COLLABORATE

Group collaboration is seamless and intuitive with our interactive touch monitors that enable multiple users to write, edit, annotate or erase notes simultaneously — with up to 20 touch points. Exclusive Dell Screen Drop feature, available in our 4K interactive touch monitors, improves reachability for users from different heights.

## EASY TO DEPLOY AND MANAGE

Dell Large Format Monitors are VESA compatible, making it easy to pick a mounting solution that best fits your space, whether that's a mobile cart, stand or wall mount. And, with HDMI CEC, RS45 and RJ232 ports<sup>1</sup>, your IT can conveniently control your monitor via the network or meeting room control systems.

**Our own team can effortlessly deploy the Dell 86 4K monitors. We use our own Windows image to ensure compliance with our standards and security policies. That reduces the total cost of the devices even more.”**

– Paul Wilmore, Director of IT, Stonyhurst College

# Present your best

WITH DELL 4K INTERACTIVE TOUCH MONITORS

## IMPRESSIVE SCREEN PERFORMANCE

Keep your audience engaged with a 55, 75 or 86-inch 4K interactive touch display, designed for seamless collaboration. See brilliant images in 4K resolution and experience consistent colors across the screen from virtually anywhere in the room, thanks to the wide viewing angle enabled by IPS technology. Anti-glare and anti-smudge coatings reduce distracting reflections and fingerprints for consistent clarity.

## COLLABORATE WITH EASE

Group collaboration is intuitive and effortless with up to twenty points of touch interactivity. Write or draw in real time with your fingers or stylus, and erase written content with the palm of your hand — with virtually zero lag. Experience natural and intuitive touch functionality that is compatible with most industry-standard software.

## EASY ON THE EYES

Dell ComfortView reduces blue light emissions to help optimize eye comfort over extended viewing periods.

# Present your best

WITH DELL 4K INTERACTIVE TOUCH MONITORS

## INCLUSIVE FOR ALL. EXCLUSIVE TO DELL.

Exclusive Dell Screen Drop is the world's first accessibility feature that improves reachability for users working from different heights.\*\* Buttons at the side of the panel enable users to lower the displayed image to 3 different height settings so it's within easy reach. This feature is available on Dell 4K Interactive Touch Monitors — C5518QT, C7520QT, C8621QT.

Dell Screen Drop feature provides four convenient height settings:

100%

66%

50%

33%

## ALL-IN-ONE SOLUTION

Dell 4K Interactive Touch Monitors feature a unique design that's compatible with the Dell OptiPlex Micro PC (sold separately), which integrates seamlessly into the back panel. This creates an all-in-one solution that simplifies deployment, network management, and allows your IT to easily upload your organization's standard OS image for a display solution that adheres to your company's security and service standards.

## LOCK IT DOWN

Prevent accidental shutdown or settings changes with lock mode, a feature that allows IT managers to control the menu and power options.

# Why choose Dell Large Format Monitors

Dell Large Format Monitors are available as standalone displays or they can be complemented with hardware and software from Dell or other manufacturers like Intel, Chief, FlatFrog, Logitech and Zoom, to create a total solution that meets the unique needs of your organization.

## OPEN PLATFORM

Displays should fit the way your employees meet, not the other way around. With our open platform approach, you can deploy our monitors into your meeting spaces and continue to use the technology that you're comfortable with. This makes your new monitor inherently easy to deploy and use — without the need for calibration or training.

## CUSTOMIZATION

Dell offers a variety of hardware and software technologies that complements our Large Displays, making it easy for you to create an all-to-end display solution that meets the needs of your business.

## SUPPORT

Dell Large Format Monitors comes with a 3-year Advanced Exchange Service (upgradeable to 5 years)<sup>2</sup> so that if needed, we will send you a replacement display the next business day, ensuring your spaces are always ready for a meeting. Upgrade to 24x7 specialist technical phone support with the Dell ProSupport option.

The Dell Large Format Monitors don't require any training at all. After a rapid setup, teachers and students are ready to use the Dell 86 4K monitors immediately.”

## DELL LARGE FORMAT MONITORS

### ESSENTIALS

DELL OPTIPLEX MICRO PC  
WITH OPTIONAL INTEL UNITE

Dell OptiPlex Micro PC provides an all-in-one like experience, allowing video conferencing, whiteboarding, presentations and other applications to be run directly on the monitor. When combined with software such as Intel Unite, Quicklaunch, Microsoft Whiteboard or Zoom Rooms, this provides for a very easy to use meeting experience.

DELL WIRELESS  
KEYBOARD & MOUSE

Connect to the PC wirelessly with a lightweight keyboard and mouse that allows for multiple PCs to be connected with a simple switch.

### CONFERENCE CAMERAS AND SPEAKERS

LOGITECH MEETUP  
CONFERENCE CAMERA

Ideal for small and medium spaces, this conference camera offers a 120 degree field of view and with comes with integrated audio, making this perfect for video conferencing when combined with conference software.

ACTIONTEC SCREENBEAM  
ENTERPRISE 960

Suitable for small and medium spaces, this enterprise-grade wireless display receiver enables users to present from anywhere in the room, and even allows wireless touchscreen operation.

LOGITECH  
RALLY PLUS

Hear and be heard with life-like clarity with four, omnidirectional microphones and 360-degree coverage. It's ideal for large meeting and learning spaces.

# Recommended software

## DELL LARGE FORMAT MONITORS

### SOFTWARE SOLUTIONS

The Intel Unite® solution lets you easily create and manage a secure content sharing and collaboration platform for your organization. Wirelessly connect displays, employees, and mixed technology environments so your team can share and collaborate seamlessly, wherever they are.

A simple and secure meeting room management interface. With one touch users can join meetings, start applications, access data and content, and share device screens.

Microsoft Teams is the hub for team collaboration in Office 365 that integrates the people, content, and tools needed for teams to be more engaged and effective.

FlatFrog works just like a typical whiteboard — allowing presenters to annotate on the surface and capture annotations with differentiated pen functionality for multiple users and natural palm erase. License included with C5518QT, C7520QT and C8621QT.

DisplayNote software helps to make presentations more interactive. Allowing users to connect and contribute to the presentation and collaborate with each other from their own devices. License included with C5518QT and C7071T.

Zoom Rooms is a software that combines video conferencing, wireless content sharing, and integrated audio into one easy-to-use platform. It can be used for room only attendees or remote attendees joining from a another room, from their desktop, or from their mobile device.

### SOFTWARE FOR EDUCATION

Google for Education offers secure and straightforward cloud-based management with automatic updates and built-in security features. Students and teachers can connect their Chromebooks directly to the Large Format Monitor using one of the many available inputs, or connect wirelessly using Chromecast. They can annotate and interact with compatible applications directly on the display or from their touch-enabled Chromebook.

With Microsoft in Education, students and teachers can easily connect to external devices such as speakers, cameras, and digital microscopes, as well as an infinite number of software applications. Choose from web, mobile, and desktop version of apps that students can annotate over simultaneously and in real time, such as Microsoft Edge, PowerPoint and OneNote.
